Reminding Clients the Importance of Flood Insurance

As we celebrate the recent opening of the Kingsland bridge, the time is NOW to talk to your clients about flooding and whether they have coverage.

Homeowners with a property outside a high-risk area may be able to purchase a policy for as low as \$500 per year, according to the Texas Department of Insurance.

Most flood insurance policies have a 30-day waiting period. For more information about flood insurance, visit floodsmart.com.
